SUMMARY

CS graduate with hands-on experience building REST APIs, backend, and AI-integrated applications using Python, FastAPI, Docker, and cloud platforms. Strong foundation in Object-Oriented Programming (OOP) and SQL, with practical exposure to React and AI-assisted development. Eager to contribute to a product engineering team and grow with modern software practices.

TECHNICAL SKILLS

Languages: Python, Java, SQL, C, C++

Backend: FastAPI, REST APIs, JSON, Pydantic

Databases: MySQL, SQL

Tools: Git, Docker, Linux, GitHub Actions

Core CS: Object-Oriented Programming, Data Structures & Algorithms

Gen AI / ML: LLM Integration, Prompt Engineering, RAG, CrewAI, LangGraph

PROJECTS

AI-Powered Personal Virtual Assistant | *Python, FastAPI, Docker, GCP* 2025

- Built an asynchronous REST API using FastAPI following clean API design principles.
- Containerized the application with Docker and deployed it on Google Cloud Run.
- Integrated external LLM APIs and implemented function-calling workflows.
- Designed JSON-based request/response APIs for chatbot interactions.

Argus — Serverless AI Code Reviewer (GitHub Action) | *Python, GitHub Actions* 2025

- Developed a serverless GitHub Action in Python for automated pull request reviews.
- Consumed GitHub and Gemini APIs to analyze code diffs and generate review comments.
- Implemented automated quality checks and merge validation workflows.

LLM Story Generation — Gemma Fine-Tuning | *Python, PyTorch, Hugging Face, QLoRA* 2025

- Fine-tuned a Google Gemma model on the TinyStories dataset (~476M tokens) using QLoRA to reduce GPU memory usage and train on the college GPU cluster.
- Built the full NLP pipeline for tokenization, preprocessing, and story generation inference.

EXPERIENCE

QA Intern Mar 2026 – Jun 2026

Scaler AI Labs

Bengaluru

- Reviewed and quality-assured AI training and fine-tuning datasets for leading AI labs, validating accuracy, completeness, and labeling consistency.
- Evaluated deliverables against client specifications, flagging errors and inconsistencies — building strong attention to code and data quality.
- Investigated defects, validated datasets, and documented issues.
- Collaborated with QA workflows using structured review processes.

EDUCATION

KLE Dr. M.S. Sheshgiri College of Engineering & Technology

Belagavi

B.E. in Computer Science — CGPA: 7.95

2021 – 2025

Vagdevi PU Science College

Bagalkot

PUC (Science) — 100%

2019 – 2021

CERTIFICATIONS

- AI Engineer — Agentic AI Track: The Complete Agent & MCP Course (*Udemy*)
- AI Automation: Build LLM Apps & AI Agents with n8n & APIs (*Udemy*)
- Python Basics (*Infosys Springboard*)
